

Reading Foundations

Where Foundational Skills and Knowledge Connect

Strong reading development happens when foundational skills and knowledge building work together. A coherent literacy system helps make learning more connected and lasting.

Arts & Letters™: Reading Foundations is a foundational skills strand designed to work alongside **Arts & Letters™: Language Arts**. Together, the two strands create a coherent literacy system that helps students build knowledge, strengthen decoding, and become skilled, confident readers.

Designed for Skilled, Confident Reading

Phonics as Knowledge Building

Students build phonics knowledge over time through aligned reading and practice connected to meaningful topics and texts.

GREAT
MINDS

Purposeful Practice That Strengthens Memory

Intentional revisiting and application help students build reading skills that last beyond short-term mastery.

Maximize Instructional Time

Efficient routines, embedded assessments, and responsive teaching help every instructional minute move learning forward.

When instruction is coherent, practice is purposeful, and learning is connected across the literacy block, students develop into skilled readers.
