
Grade K | Montana Content Standards for Mathematics Correlation to *Eureka Math*²®

When the original *Eureka Math*[®] curriculum was released, it quickly became the most widely used K–5 mathematics curriculum in the country. Now, the Great Minds[®] teacher–writers have created *Eureka Math*²®, a groundbreaking new curriculum that helps teachers deliver exponentially better math instruction while still providing students with the same deep understanding of and fluency in math. *Eureka Math*² carefully sequences mathematical content to maximize vertical alignment—a principle tested and proven to be essential in students’ mastery of math—from kindergarten through high school.

While this innovative new curriculum includes all the trademark *Eureka Math* aha moments that have been delighting students and teachers for years, it also boasts these exciting new features:

Teachability

*Eureka Math*² employs streamlined materials that allow teachers to plan more efficiently and focus their energy on delivering high-quality instruction that meets the individual needs of their students. Differentiation suggestions, slide decks, digital interactives, and multiple forms of assessment are just a few of the resources built right into the teacher materials.

Accessibility

*Eureka Math*² incorporates Universal Design for Learning principles so all learners can access the mathematics and take on challenging math concepts. Student supports are built into the instructional design and are clearly identified in the *Teach* book. Further, the curriculum carries a focus on readability. By eliminating unnecessary words and using simple, clear sentences, the *Eureka Math*² teacher–writers have created one of the most readable mathematics curricula on the market. The curriculum’s readability and accessibility help all students see themselves as mathematical thinkers and doers who are fully capable of owning their mathematics learning.

Digital Engagement

The digital elements of *Eureka Math*² add to students’ engagement with the math. The curriculum provides teachers with digital slides for each lesson. In addition, each grade level includes wordless videos that spark students’ interest and curiosity. Students at all levels work through mathematical explorations that help lead to their own mathematical discoveries. Digital lessons and videos provide opportunities for students to wonder, explore, and make sense of mathematics, which contributes to the development of a strong, positive mathematical identity.

Standards for Mathematical Practice	Aligned Components of <i>Eureka Math</i> ²
<p>MP.1 Make sense of problems and persevere in solving them.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.2 Reason abstractly and quantitatively.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.3 Construct viable arguments and critique the reasoning of others.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.4 Model with mathematics.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.5 Use appropriate tools strategically.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.6 Attend to precision.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.7 Look for and make use of structure.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>
<p>MP.8 Look for and express regularity in repeated reasoning.</p>	<p>Lessons in every module engage students in mathematical practices. These are indicated in margin notes included with every lesson.</p>

Counting and Cardinality

Know number names and the count sequence.

K.CC.5

Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects from a variety of cultural contexts, including those of Montana American Indians.

- K M1 Lesson 3: Classify objects into two categories and count.
- K M1 Lesson 6: Organize, count, and represent a collection of objects.
- K M1 Lesson 7: Practice counting accurately.
- K M1 Lesson 8: Count sets in linear, array, and scattered configurations.
- K M1 Lesson 10: Count out a group of objects to match a numeral.
- K M1 Lesson 19: Organize, count, and represent a collection of objects.
- K M1 Lesson 20: Count objects in 5-group and array configurations and match to a numeral.
- K M1 Lesson 21: Count sets in circular configurations and match to a numeral.
- K M1 Lesson 22: Count sets in scattered configurations and match to a numeral.
- K M1 Lesson 24: Count out a group of objects to match a numeral.
- K M1 Lesson 33: Organize, count, and represent a collection of objects.
- K M2 Lesson 16: Organize, count, and represent a collection of objects.
- K M3 Lesson 22: Organize, count, and represent a collection of objects.
- K M4 Lesson 17: Organize, count, and represent a collection of objects.
- K M5 Lesson 27: Organize, count, and represent a collection of objects.
- K M6 Lesson 1: Describe teen numbers as 10 ones and ___ ones.
- K M6 Lesson 6: Count out a group of objects to match a numeral.
- K M6 Lesson 7: Decompose numbers 10–20 with 10 as a part.
- K M6 Lesson 12: Investigate different ways to decompose teen numbers.
- K M6 Lesson 13: Organize, count, and represent a collection of objects.
- K M6 Lesson 24: Organize, count, and represent a collection of objects.

Supplemental material is necessary to address a variety of cultural contexts, including those of Montana American Indians.

Counting and Cardinality

Compare numbers.

Montana Content Standards for Mathematics	Aligned Components of <i>Eureka Math</i> ²
