

At Great Minds® we believe that classrooms should be places where students and teachers encounter wonder, rigor, and knowledge.

We believe literature, history, art, and science all have a place in English language arts. And we believe students can become confident readers, writers, listeners, and speakers while building deep, well-rounded knowledge of the world around them.

That's why we developed *Arts & Letters™: Language Arts*. Designed by our expert team of teacher-writers, *Arts & Letters: Language Arts* features knowledge-building lessons and a carefully curated selection of art and complex texts that help you meet the expectations of the standards while celebrating new worlds of knowledge with your students.

In addition to the texts that are integral to *Arts & Letters: Language Arts* lessons, each module includes a Volume of Reading list.

What are Volume of Reading texts?

Volume of Reading texts are literary and informational texts that teachers can use for additional classroom instruction and students can select for independent reading. *Arts & Letters: Language Arts* Volume of Reading texts help students of all abilities expand their knowledge of each module topic. **The texts vary in genre and level of complexity and are not required, but they are a great opportunity for students to get extra practice building vocabulary and content knowledge—and develop a love of reading.** Please note that some titles on this list can show up in multiple modules depending on the topic.

How do I place an order?

Contact a Great Minds account solutions manager to assist you with your order.
